Box Office

We've provided charities and not-for-profit organisations with our CRM solutions for over 23 years. Our knowledge and expertise in integrated fundraising, membership and CRM database systems is unrivalled.

Managing Fundraising Activities

Ability to structure events, campaigns and mailing lists into a hierarchical structure of activities and programmes. Allowing you to set targets, track progress and report on income, supporters recruited or marketing initiatives.

Gift Aid

Fully HMRC approved and compliant to enable an automated online Gift Aid filing process for individual donations along with the Gift Aid Small Donations Scheme.

Earmarking Income to Restrictions or Projects

Earmarking in Advantage^{NFP} can be as simple as turning the earmark feature on/off for an individual, or as complex as a hierarchical setup, giving you confident control over all your restricted income and projects.

Committed Giving and Membership

All forms of regular giving, including online and direct debits, restrictions and sponsorship are fully supported by Advantage^{NFP}. Our membership function enables multiple membership types, levels and date dependent fees, with the flexibility to add additional schemes at no extra cost.

Event Management

The ability to manage events, activities or courses and allow a clear understanding of who has registered to attend which event, or session, and if they have paid online.

Reporting and KPIs

The ability to view summaries of data from a range of standard reports or in a graphical KPI dashboard format for a quick overview. Both can be tailored by setting bespoke parameters and filters. All are available for export.

Legacy Administration and Marketing

The ability to manage legacies, from the point when the will is written, to the point when the bequest becomes available.

Schools, Colleges and Universities

Easily build strong relationships with students, parents and alumni. Providing the tools for a 360° view of your alumni, recording academic attendance, courses, qualifications and input donations.

Advantage^{NFP} Box Office

A fully functional Box Office Ticketing solution that seamlessly integrates with our Advantage^{NFP} Fundraiser database solution. It looks after all your ticketing, fundraising, membership and marketing needs. Features include online booking with seat selection, list management, graphical seat layout designer, on the door mode, professionally printed tickets, reporting and analysis.

Web Modules

Allows supporter access to your website to register and maintain their details, select communication preferences, make donations and register for events. All in a secure environment with direct updates to and from Advantage^{NFP}.

Capital Appeals Module

Assists you to raise funds through targeted fundraising appeals, using prospect cultivation and moves management. Includes unlimited user configurable templates.

Beneficiaries Module

Enables grant offering of money, assets or resources to service users or other beneficiaries through a customisable approval workflow.

Helping you to manage your world and raise more funds!
